CAREER SUMMARY

An enthusiastic and quick-learning fresher with a strong foundation in software development and problem-solving. Skilled in programming, logical thinking, and adapting to new technologies. Known for being a team player with good communication skills and a proactive approach to learning. Eager to contribute to a dynamic organization by delivering quality work and continuously improving through real-world experience.

PROJECT

Learning Management System

- Developed a web-based Learning Management System for MCA students and faculty.
- Designed an interactive frontend for syllabus access, study materials, assignments, notifications, and student results management.
- Structured a robust database using MySQL for efficient data handling and secure storage.
- Implemented an admin panel for faculty to manage content and student performance data.
- Integrated role-based authentication for admin, faculty, and students to ensure controlled access.
- Ensured scalability and modularity, allowing future feature additions seamlessly.
- Improved student engagement and faculty productivity by streamlining academic workflows.

CERTIFICATION

- Basic Python From K12 Academy.

ACHIVEMENTS

- I have won many certificates and shields in sports at school-level competitions.
- Organized various cultural & technical activities.
- Won PRIZE MONEY in Quest.
